

## Report on the establishment of the Web site

The collaboration site of the EWIRA JRA6 of the ENSAR project was created as a part of the implementation of the project. It is hosted by the Institute of Nuclear Research and Nuclear Energy of the Bulgarian Academy of Sciences.

The web site consists of 7 main menus:

1. The Home page – shows the title of the project with the logos of the EU and FP7;
2. The Project – giving the short presentation of the aims of the project;
3. News related to the project;
4. Participants – all the participation organizations in the project with a short resume of their activities and link to their official websites;
5. Jobs - presenting the current open job positions;
6. Contacts – the e-mails of the responsible persons from all the participant organizations;
7. Link to the main website of the ENSAR project.

The pictures below show some of the web pages of the website.

The current website address is: <http://web.inrne.bas.bg/ENSAR/>
